## Guaranty Deposit Law Given a Trial

The efficiency of the guaranty fund provision of the state bank law, according to Commissioner of Insurance and Banking Gill, has been fully demonstrated in the liquidation of the Harris County Bank and Trust Company, at Houston, which is now in progress. The commissioner has just been advised by State Bank Examiner J. K. Woods, who is in charge of that bank, to the effect that the depositors are exceedingly slow in presenting their pass books so that they may withdraw their deposits from this bank.

The reason for this is that the depositors know that their funds are safe, and he says there is no reason to rush, while on the other hand, those who are now winding up the affairs of this bank want to get through with the task. The department at Austin recently sent \$75,000.00 from the guaranty fund with which to pay depositors.

The First State Bank and Trust Co., Bryan, Texas, is a guaranty fund bank.
